

Voluntary cancellation of Kyoto units

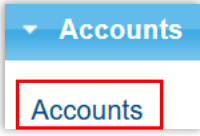

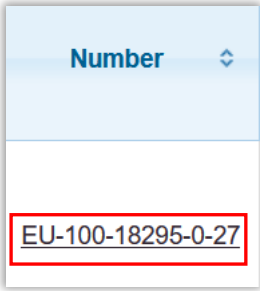

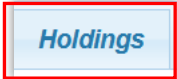

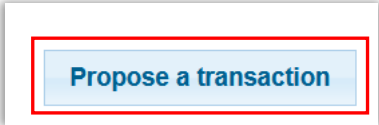

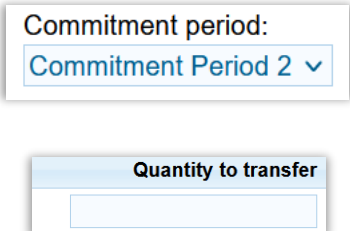

Version 1: 01.12.2023

Voluntary cancellation of Kyoto units must be **proposed** by an authorized representative and **approved** by another authorized account representative having the right, respectively, to initiate and approve processes.

This type of transaction can be initiated at any time or day of the week, and is **executed immediately** after approval.

When proposing a voluntary cancellation of Kyoto units, the authorized representative will not need to select any **acquiring account** as the system automatically identifies the Kyoto cancellation account, after the proposed transaction.

Follow the instructions in the table to propose the cancellation
