

Dissemination Workshop - Online Event

EO4GEO opportunities for Earth Observation and Geoinformation skills improvement

22nd September 2021 | h 14 - 16

The objective of this workshop is to highlight how some of the current challenges in terms of skills and training in the Earth Observation and Geographic information (EO*GI) sector can be addressed using EO4GEO Tools and resources. To this effect, several stakeholders from the EO*GI sector will share their experience with resources on space-geoinformation, developed in the context of the EO4GEO Blueprint project. The project and its overall aims will be presented followed by demonstrations of real use-cases where the project's outputs were used to solve workforce challenges or support up-skilling. The participants will learn about tools tailored to set up learning paths and training materials, with practical examples devoted to train students and people entering the labour market, to re-skill and/or up-skill staff in public administrations and to facilitate the hiring process in private organisations. Additionally, they will get insights on the variety and richness of training that can be offered to their workforce. This will also be an opportunity for training providers to understand how they can collaborate with the project and make use of the existing resources to develop their training offer.

AGENDA

14:00	WELCOME	Luca Guerrieri (ISPRA)
14:05		<i>The EO4GEO approach to skill needs in the EO*GI sector</i> Milva Carbonaro (EO4GEO)
14:20		<i>The set of tools based on the Body of Knowledge</i> Sven Casteleyn (Universidad Jaime I)
14:40		<i>Using the EO4GEO training materials during an academic summer school</i> Barbara Hofer (University of Salzburg)
14:55		Live poll - Luca Guerrieri (ISPRA)
15:00		<i>A training framework developed to facilitate up-skilling and re-skilling of local administration workforce (4regions)</i> Valerio Tramutoli (University of Basilicata)
15:15		Live poll - Luca Guerrieri (ISPRA)
15:20		<i>Using the tools in a company to recruit a new employee, practical demo</i> Giacomo Martirano (EPSIT)
15:35		Live poll - Luca Guerrieri (ISPRA)
15:40		Open floor for questions to the speakers - Luca Guerrieri (ISPRA)
15:50		<i>Recap and lesson learnt</i> Danny Vandenbroucke (EO4GEO)
16:00	WORKSHOP END
